DESIGNERS, ENGRAVERS AND PHOTOGRAPHERS.

MY aim, when designing the decoration for a Presentation Address, is not merely to attract the outward eye, but also to appeal to the mind; to illustrate and give additional point to the subject matter, by means of symbolical ornament, appropriate emblems and miniature pictures encrusted in the initials, or woven into the borderings; so that every design derives a peculiar value, from the fact that it could not, without absurdity, be reproduced on any other address.

Webster's International Dictionary

Successor of the "Unabridged."

Standard of the U. S. Supreme Court, of the U. S. Government Printing Office, and of nearly all the Schoolbooks. Warmly commended by every State Superintendent of Schools.

THE BEST FOR EVERYBODY

BECAUSE

It is easy to find the word wanted.

Words are given their correct alphabetical places in the vocabulary, each one begining a paragraph so as to be readily caught by the eye.

It is easy to ascertain the pronunciation.

The pronunciation is indicated by the ordinary diacritically marked letters used in the schoolbooks, whose sounds are taught in the public schools.

It is easy to trace the growth of a word.

The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their growth from the root idea.

It is easy to learn what a word means.

The definitions are clear, explicit, and full; terse, yet comprehensive. Each definition is contained in a separate paragraph.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec and Winnipeg, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada. For Latitude and Longitude of Observatory see page 16.

NOTE—Standard times* are given in all columns headed Toronto, Quebec and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The seven last columns are calculated for Lat. 45°, Long. 4h. 46m. W., but will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation correspondiug to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	—5′ 10″	—3′ 32″	—1′ 49″	0′ 00″	+1′ 55″	+3′ 55″	+ 6′ 3″	+8′ 17″	+10′ 39″
2nd Correction for each minute of latitude	+ 1″.6	+ 1″.7	+ 1″.8	+ 1″.9	+ 2″.0	+ 2″.1	+ 2″.2	+ 2″.4	+ 2″.5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′..1st correction = — 3′ 32″ 2nd correction + 1.7 × 20 = + 0′ 34″
" " 47° 40′.. " " = + 3′ 55″ " " + 2.1 × 40 = + 1′ 24″
" " 45° 10′.. " " = 0′ 0″ " " + 1.9 × 10 = + 0′ 19″

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s
Constant	5 54 31	5 54 21	5 54 11	5 54 1	5 53 50	5 53 39	5 53 27	5 53 16	5 53 3
Difference for 10′ of latitude.	—1.7	—1.7	—1.7	—1.8	—1.8	—2.0	—1.8	—2.2	

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

The Dominion of Canada has an area of about 3,315,647 square miles, or, including its water surface, 3,456,383 square miles, is about 3,500 miles from east to west and 1,400 miles from north to south, and consists of the provinces of Ontario and Quebec (formerly Upper and Lower Canada), Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island and the North-west Territories (which latter contain the vast territory formerly under the control of the Hudson's Bay Company). It therefore comprises the whole of the northern half of North America, with the exception of the United States Territory of Alaska on the west, and Labrador, which is under the control of the Government of Newfoundland, on the east. It is bounded on the north by the Arctic Ocean, on the west by the Territory of Alaska and the Pacific Ocean, on the south by the United States, and on the east by the Atlantic Ocean.

The time is Standard Time for the 60th meridian; or four hours slower than Greenwich Mean Time.

The height is measured from a datum plane which is about 1 foot 6 inches below the level of low water at Ordinary Spring Tides; which is the Datum of the Admiralty Charts. Hence to obtain the height above the Admiralty Datum, deduct 1·5 feet from the height above given.

The time is Standard Time for the 60th meridian; or four hours slower than Greenwich Mean Time.

The height is measured from a datum plane which is about 1 foot 6 inches below the level of low water at Ordinary Spring Tides; which is the Datum of the Admiralty Charts. Hence to obtain the height above the Admiralty Datum, deduct 1·5 feet from the height above given.

TIDE TABLES, QUEBEC, 1896.

TIDAL DIFFERENCES, or Corrections, applicable to the time of High Water at Quebec, for points along the Lower St. Lawrence, obtained from the Admiralty Charts. The time given by these differences will be Eastern Standard Time (for the 75th Meridian) and will be correct at full and change, and approximate only at other times in the month.

FORMS OF GOVERNMENT THROUGHOUT THE WORLD.

By Dr. J. G. Bourinot, C.M.G., F.R.S.C., Clerk of the Canadian Commons, Author of "How Canada is Governed," and other Works on the History and Government of Canada.

I.—INTRODUCTION.

In this necessarily very brief survey of the forms of government throughout the world, I have found it most convenient for purposes of reference to arrange the subject under the headings of "countries," "executive power," and "legislative power," with some mention of local or municipal government under the latter. I commence with the British Empire, as embracing the countries in which Canadians have naturally the deepest interest. After Great Britain and Ireland follow the colonies and dependencies of the empire, including India, in alphabetical order. Then come the other countries of the world in the same alphabetical order, commencing with the absolute monarchy of savage Abyssinia, now under the protection of Italy, while all colonies and dependencies follow the reference to their particular sovereign state. I have also thought it advisable, for purposes of reference, to add the area and population of every country.

A review of the methods of government in the world show a survival of the oldest forms, though in a more or less modified state. We see still in America examples of tribal communities; in Asia and Africa the organized patriarchal forms, and the nomadic hordes and camp nations. We can see illustrations of the division of organized government that was many centuries ago given by that master of political science, the Greek Aristotle. Although his analysis of the forms of government was far from exhaustive, and his descriptions are not quite adapted to modern types, his enumeration still serves as a most excellent frame on which to hang an exposition of these forms for studies and discussion. We see monarchy, or the rule of one, in Russia, China and Turkey; aristocracy, or the rule of the few in a waning degree in Germany and Austria, where nobles still exercise large power in houses of peers and in government; democracy, or the rule of the many, in the United States, in the South American republics, and in numerous countries to which popular government has extended itself within this century. We see also the truth of his remarks that monarchy can assume the degenerate shape of tyranny; aristocracy, the degenerate shape of oligarchy; and democracy, the degenerate shape of anarchy or mob rule. Under modern conditions aristocracy, as a form of government, is fast disappearing before the growth of democracy. In England the power of the peers was effectually broken by the introduction of responsible or parliamentary government in the reign of William III. and the passage of the first Reform Bill of 1832. The peers of the realm now derive their influence chiefly through their connection with the political party in power and the ministry that owes its existence to the commons. On the continent of Europe, the houses of peers are still powerful, but their power as a house is chiefly derived not from purely aristocratic influence, but from their share in the work of legislation as a branch of the legislature, and from the presence in the majority of cases of life or elected members, representing important class, educational, and other interests that bring the bodies into touch with the more popular elements of the country. Monarchy still exists as an important form of government. The present government of Russia is abnormal in the Europe of to-day, as abnormal as that of the Turk,—"a belated example of those crude forms of politics which the rest of Europe has outgrown." Otherwise the monarchies of Europe are limited by the resolutions of the popular parliaments. While monarchy is more or less limited and aristocracy seems on the point of disappearing, democracy, as a form of government, is in a fair way to prevail universally. Ever since the rise of popular education in the last century, and the success of parliamentary government in

England, and popular government in the United States, the forces of popular thought have made a steady headway throughout the world. But we have seen that democracy may mean license and anarchy, as Aristotle long ago foresaw, and none but a Cæsar or a military leader can at times bring it back to reason and order. Citizens under monarchical rule may be, and often are, more fortunately placed as far as personal liberty is concerned than the citizens of pure republics in South America. In those countries tyranny as brutal as that of Caligula or Commodus has reigned. Out of fourteen presidents of the Bolivian republic, thirteen have died assassinated or in exile, and no one can safely conjecture the final fate of any of the former colonies of Spain. Even in the United States, despite the influence of English institutions and the English governing instinct for law and order—the saving principle always in that great federal republic—democracy at times, under the sway of mob rule and party spirit, has seemed clearly dangerous to public security and good government.

But a close study of forms of government is encouraging since it shows on the whole a steady growth of representative institutions, and the extension of popular rights under hopeful conditions of law and order. The theory of national sovereignty has been fully accepted in France, Italy, Spain, Portugal, Holland, Belgium, Greece, and the Scandinavian States. In Germany it has not been yet acclimatized but while the emperor's will is still a powerful factor in government and legislation, we can see the influence of the English principles of parliamentary and popular government. In Spain we still see the influence of the military spirit, and no one would be surprised to see bayonets in the Cortes at certain political crises. In France, the results of late have been encouraging, and it is quite possible that France may still give us additional evidences of the strength of parliamentary government outside of countries of English origin.

England is the mother of free governments throughout the world, even among nations that do not speak her tongue. Her principles have more or less influenced the great communities of Europe, as I have just shown. Her self-governing dependencies have closely followed her parliamentary system of government, and year by year we see colonies emerging from a state of pupilage and assuming large rights of self-government. It is true that in Jamaica there has been a step backward, but it has been forced by abnormal conditions of depressed trade and the existence of a large and idle coloured population, not equal to the requirements of freedom and citizenship. The British empire now comprises forty-two distinct and independent governments. In addition to these there are a number of scattered dependencies under the dominion or protection of England, which do not possess regularly formed administrations and vast territories controlled by English chartered companies protected by the queen. Of the forty-two administrations, eleven have elected assemblies and responsible government; the others are (1) crown colonies in which the crown "has the sole control of legislation while the administration is carried on by public officers under the control of the home government"; or (2) colonies "possessing representative institutions but not responsible government, in which the crown has no more than a veto on legislation, but the home government retains the control of public officers."

While the old world is the home of the parliament and a responsible ministry, the new world is that of a congress, and an executive not having seats in or directly responsible to the legislature. In some countries of Europe, and in England's dependencies, the English model is directly followed, but the South American republics have taken the American system with some modifications. In Canada alone, in America, is responsible or English parliamentary government seen in complete operation. Nevertheless it is England that has given representative government to the world at large. The system of the United States is based on English institutions of a century ago, and on the legislative system of the old English colonies. It is the principle of federation that has been fully expanded in the United States. It has formed the model for even Switzerland and Canada, and developed the idea all throughout the world. In Germany, Austria, Hungary, Norway and Sweden, the West Indies, and in a few South American republics, we see this federal idea solving important problems of political government. In Australasia there is now before the legislatures and people a scheme of union based

on that of the United States and Canada, and the time is probably not far distant when those distant English communities will enter into the rank of federations with a great future before them as a united dominion of the empire. The federal idea in co-operation with responsible or representative government must sooner or later rule the world.

In every country possessing representative government we see a parliament or diet or congress, or some other assembly conveying the same political thought in the particular language of a nation or state. In the majority of cases, two houses prevail. Canada occupies an exceptional position among English dependencies with responsible government, since five out of the seven provinces of the dominion have abolished their legislative councils or upper branches of the legislature. Those countries in America that have followed the model of the United States possess a senate or upper chamber (Nicaragua excepted). One chambered legislatures prevail in Servia, Bulgaria, Greece, in the landtags of Austria, and in the diets of the minor German states except those of the free cities. Apart from these legislative bodies, the European communities have two chambers, varying from that of Norway (where, after a single general election, a certain number of the deputies returned are told to make an upper house,) to the ultra-aristocratic house of magnates, established from the earliest time under the ancient Hungarian constitution. Hereditary peers, generally mixed with life peers and elective peers, are still common in the second chambers of the continent of Europe; they are found in Cisleithan Austria, in Prussia, in Bavaria, in some of the smaller German states, and in Spain and Portugal. Life peers also occur, by themselves but the crown is generally directed by the constitution to select them from certain classes of distinguished men. The best example of an upper house formed by this method is the Italian senate. In many states the mode of electing senators or peers is indirect, either the electorate is different, or provinces, or states or communes elect, while the deputies of the popular branch are taken from the nation at large. Even the senate of the United States is founded on inequality of representation. This distinction between the elections of the two houses shows a fundamental doubt as to the safety of the democratic theory.

The second or popular chamber, however, is the most powerful. All elected or second assemblies have the initiation of money votes, and taxation. The senate of the United States is probably the sole instance of a legislative body which is not inferior in legislative importance to the lower house, and possesses special functions—the approval or rejection of important appointments and the confirmation of treaties—not enjoyed by any similar body in the world. In the Spanish cortes, however, either house may take the initiative in all cases of legislation. In the Netherlands, the upper house cannot amend the bills of the lower branch, but must accept or reject them in their entirety. The British house of lords cannot initiate or amend a money bill; neither can the Canadian senate nor the upper houses of any of the British dependencies. The senate of the United States, however, may amend while it cannot originate a revenue or money bill. The upper house of the Prussian landtag cannot amend the budget. In some countries there is a union of the two houses to consider and pass bills on which one or the other disagrees. This is a useful precedent, though it is borrowed from the system of the United States. In some German states a permanent committee represents the house or houses then not sitting—a *quasi* responsible government in practice.

Universal suffrage prevails generally in North and South America, including the provinces of British Columbia, Manitoba, Ontario, New Brunswick and Prince Edward Island. In a few South American states, and in Massachusetts some educational tests are necessary. Costa Rica limits the franchise to those who can live respectably, and Mexico to "all respectable male adults." Hayti requires her negro citizens to have "some vocation"—a mere euphemism certainly. In Wyoming, women can vote at state, as well as at municipal elections, and the same is true of New Zealand. In Europe, property, income, and the payment of taxes govern. The German reichstag and French chamber of deputies are chosen by general suffrage. But in no part of Europe except Austria can women vote even on a property qualification. In some countries a premium is placed on learning or education, viz: Victoria, Tasmania, Ecuador, Bolivia, Chili, Cape of Good Hope, Malta, Hawaii, Hungary,

Bremen, and other states. In Montenegro, men capable of bearing arms are the electors. In a few countries the age of electors is limited to 25, but the ordinary age of manhood, 21, may be considered the rule.

Qualifications for members of the houses are required generally on the lines of age, but except in a few of the older states of Europe property qualification is now not necessary for the popular chamber. The age of the elected or appointed members of the upper houses is generally greater than that of the lower, 30 being the average. The number of members in upper houses—chiefly those elected or appointed—is, as a rule, lower than that of the popular chamber. The English house of lords, however, is not very much less than that of the commons, but, it must be remembered that only a small proportion of peers ever take their seats or vote. The Hungarian house of magnates actually counts a few more than the popular branch, while the new Japanese parliament preserves a parity.

The relations to the executive show great divergence. Countries of the English type, as I have already intimated, display the ministerial responsibility well developed. On the continent generally the connection is somewhat slighter. In Sweden and Norway it is undefined. To be sure the German constitution does not create a ministry responsible to the legislature. But the system of government "seems to be in a transition stage between the one-man rule of *quasi* absolutism under constitutional forms, and the liberal *regime* of modern times." There is no ministerial responsibility in Switzerland. Between the anglo-continental system and the congressional plan, there is a very wide divergence.

The sovereign of a monarchy and the president of a republic has, with a few exceptions, some share, often considerable, in legislation. The German emperor has vast powers;—the other European constitutional sovereigns far less. The American president has far greater power in legislation than the queen of England, since he can stop any congressional legislation when there is not a two-thirds majority in both houses to over-ride his veto. The king of Sweden has an absolute veto in Sweden, and promulgates various laws, though in his office as king of Norway he has a suspensive veto only, and possesses some temporary powers when the storthing is not sitting.

The French national assembly has the important duty of electing the president of the republic, while the Swiss federal republic—the home of the "initiative" and the "referendum"—chooses the entire executive or federal council. Members of this council can sit and speak but not vote in the chambers. The federal assembly elect the president and vice-president from among the members of this council. Here are more illustrations of distrust of democracy.

It may be said that the principles of representative and popular government have, indeed, made remarkable strides within the latter half of this century. The latest acquisition is Japan, which has already made a claim for a high place among civilized nations and proved its capacity to understand the principles of parliamentary government as well as the rules and conditions of modern warfare. Another half-century must witness an extraordinary development in the same direction of popular government. The great English poet wrote a political truth when he told us years ago:—

> "For through all the ages an increasing purpose runs,
> And the thoughts of men are widened with the process of the suns."

II.—GOVERNMENT OF THE BRITISH EMPIRE.

Population, 345,000,000; with protectorates, about 382,000,000. Area without protected territory, 9,144,735 square miles.

GREAT BRITAIN AND IRELAND.—Monarchy under parliamentary government. Population in 1891, 37,740,283: England, 27,560,000; Wales, 1,510,034; Scotland, 4,025,064; Ireland, 4,704,750. Area, 121,115 square miles: England, 51,000; Wales, 7,378; Scotland, 30,000; Ireland, 31,759.

EXECUTIVE POWER.

A sovereign, at present a queen, exercising all powers of executive government through a cabinet composed of certain sworn privy councillors, who act as advisers of the crown, and conduct the public administration in accordance with law and constitutional usage. The crown is hereditary, but subject to such limitations as may be imposed by parliament—*i.e.*, by the crown, lords and commons. The head of the administration is the

premier, or first minister, who is the choice of the crown; he selects the members of the cabinet and ministry, with the approval of the sovereign. The cabinet consists, at present, of 16 ministers, of whom the first lord of the treasury is generally premier. In addition to the inner or advisory council, called the cabinet, there are other ministers holding subordinate positions in the government, but who also retire with the cabinet in case of resignation or defeat. The whole number of persons comprising the government of England, including the chief officials for Scotland and Ireland, is 56. The government hold office as long as they retain the confidence of the house of commons. The common law is the basis of justice in Great Britain and Ireland, and in all colonies and dependencies of the crown. Wherever, in the latter, the civil or other law is in force, it will be stated below in the case of the particular colony.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.

The parliament of Great Britain is composed of the crown, lords and commons. The lords consists at present of 576—archbishops (2), bishops (24) and peers, the latter divided into 22 dukes, 22 marquesses, 119 earls, 26 viscounts, and 308 barons. Six princes of the royal blood have also seats in the house. Scotland is represented by 16 peers, elected for each parliament, and Ireland by 28 representative peers elected for life. The speaker is the lord high chancellor of England, who is a member of the cabinet, and retires with a change of government. The house of lords has co-ordinate powers of legislation with the house of commons, except as respects taxation or money bills. It cannot initiate or amend such bills, but it may under exceptional conditions reject them as a whole. The house of commons is the body where the chief political power rests. It consists of 670 members, elected by the legal electors of Great Britain and Ireland, as follows: England 465, Wales 30, Scotland 72, Ireland 103. All elections are now by ballot. Since the reform bill of 1832 the franchise has been widely extended to all classes who have a stake in the country. The suffrage is now divided among freeholders, copyholders, leaseholders, occupants of lands and tenements, and lodgers of a specified value. The house of commons lasts for seven years, unless sooner dissolved by the crown with the advice of the cabinet. Parliament is summoned, prorogued and dissolved by the sovereign. The speaker and deputy speaker of the commons are elected by the house for the duration of the parliament. Members do not require a property qualification, but they must be English citizens of the age of 21 years, not bankrupts, or idiots or criminals. Members are not paid. The system of local government has been much simplified quite recently. England and Wales are now divided into 61 administrative counties, including the city of London. In every county there is a council composed of aldermen and councillors. Aldermen are elected for six years, half of them retiring every third year. A councillor is elected for three years. The counties are again divided into "urban districts" and "rural districts," in which councils are elected. The parish continues to be a unit of local government, and the duties formerly performed by "vestries" are now discharged by "parish meetings" and "parish councils." In cities and towns the affairs are administered by municipal corporations, consisting of mayor, aldermen and burgesses; the mayor and aldermen are elected by the council, and the burgesses by ratepayers. Women can be elected only to district councils and parish councils, including the London vestries. Married as well as single women can vote at parochial elections. In Scotland there are parish councils, and municipal bodies in towns and cities. The councils of the latter consist of a provost and bailies. In Ireland there is no system of representative local government, but in counties the authority is the grand jury. In some towns and boroughs there are corporations consisting of mayor, aldermen and councillors. In the majority of towns local government is entrusted to commissioners, appointed by the Irish government.

In addition to these members of the cabinet, there are a controller of customs, a controller of inland revenue, and a solicitor-general, who occupy positions analogous to those English ministers who are in the government but not in the inner or advisory council. The government holds office as long as they have the confidence of the popular branch of parliament. The principles of parliamentary government are those of England. The common and criminal law of England prevails in all the provinces except Quebec, where the old French civil code and English criminal law are in force.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—The queen, senate, and house of commons. The senate is composed of 78 members, when full, appointed by the crown, possessed of property qualification and of the age of 30 years. The speaker is chosen by the crown. Legislative assemblies and executive councils exist, and in a few cantons there are landsgemeinden or assemblies of the male citizens for the purpose of making laws and appointing their administrators. Executive Power.—In each state there is a governor and a lieutenant-governor and officers to administer the government. The governor and lieutenant-governor are elected by the people for four years in following states: California, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nevada, North Carolina, Oregon, Pennsylvania, Virginia, Washington, West Virginia, and Wyoming. In the following states the term is three years: New Jersey and New York. In the following, two years: Alabama, Arkansas, Colorado, Idaho, Iowa, Kansas, Michigan, Minnesota, Nebraska, New Hampshire, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Vermont, Wisconsin. In the following, the term is one year: Connecticut, Maine, Massachusetts and Rhode Island. All the governors have the power of veto over legislation except in Delaware, North Carolina, Ohio, Rhode Island. It requires a majority or two-thirds vote to over-ride the veto. The governor is the head of the executive and has no responsible ministers in the English or Canadian sense, but the executive or administrative officers are generally elected.

Legislative Power and Local Government.—In all the states there is a legislature of two houses; an upper house, generally called senate, and a house of representatives, both elected by the people of the state. In the following states the senate is elected for four years, the house of representatives for two years, and sessions are biennial or annual: Alabama, Arkansas, California, Colorado, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Mississippi (annually), Missouri, Montana, Nevada, North Dakota, Oregon, Pennsylvania, South Carolina (annual), Texas, Virginia, Washington, West Virginia and Wyoming. In the following states the term is for the senate two, for the house, two, and sessions biennial: Idaho, Michigan, Nebraska, New Hampshire, North Carolina, Ohio, South Dakota, Tennessee, Vermont. In the following states the term is one for both senate and house, and sessions annual: Connecticut, Maine, Massachusetts, Rhode Island. In Minnesota the term of the senate is two years, of the house one, and sessions annual. In New York the senate two, the house one, and the sessions annual. In New Jersey the senate three, the house one, and the sessions annual. Universal suffrage is the rule, though Delaware has a tax qualification in state senate elections. In some states the payment of a poll tax, illiteracy and residence enter into qualifications. In Wyoming women can vote. Members of the legislature are paid. All public officials, state and municipal, are elected as a rule, but the tendency in the older states is to have a permanent public service apart from political heads. In 31 states the judges are elected by the people; in five, by the legislature; in eight, appointed by the governor, subject to conformation by the legislature or council. The Australian or Canadian ballot is now in force in 40 states; nine have passed stringent laws against corrupt practices at elections, but they are effective in only two or three states.

Throughout the union there is a very complete system of township, county, and city government. Township local government prevails in the New England states, the county is generally the unit in the south; in the middle and north-western states there is a mixed system. In several of the western states women can vote and be elected for councils. In all cases councils are elective. In the large cities there have been cases of gross corruption and mismanagement, and the best methods of improving municipal government are now attracting much serious attention.

THE STUARTS AND THE HANOVERIAN SUCCESSION.

The Stuart family traces its origin to Walter Fitz-Alan, Lord of Oswestry, Co. Salop, who entered the service of David I., King of Scotland, and became Hereditary High Steward, and whose descendant, in the year 1371, ascended the throne of Scotland as Robert II. The first of the race who succeeded to the throne of England was James the First, who had reigned in Scotland as James VI.: he was the only son of the unfortunate Queen Mary, by her cousin Lord Darnley, grandson of the Princess Margaret, daughter of Henry VII. After the death of Queen Elizabeth in 1603, James was not only legal heir to the throne, but was expressly designated as her successor by the deceased queen. He succeeded to the throne March 24, 1603, and after an inglorious reign of 22 years, died in 1625; he was succeeded by his son, Charles I., whose unhappy reign was closed by his execution in 1649. Cromwell and the Commonwealth followed, but the country tired of them, and the eldest son of Charles was restored in 1660. Charles II. died February 6, 1685, leaving no issue by his queen, Catharine of Braganza. Charles was succeeded by his brother, James II., whose attacks on English liberties only served to deepen the feeling of aversion with which the House of Stuart had come to be regarded by a Protestant nation. The expulsion of James having been effected with little difficulty, Dec. 11, 1688, the usual course of descent was necessarily set aside, and the Crown was offered, by a National Convention sitting in form of Parliament, to William, Prince of Orange (grandson of Charles I.), and his wife Mary. Mary was the eldest daughter of James by his first wife, Anne Hyde, daughter of the Earl of Clarendon, and they accordingly ascended the throne as William III. and Mary II., February 13, 1689. Mary died in 1694, and William in 1702. By the Act of Settlement he was succeeded by Anne, second daughter of King James, sister of Queen Mary, and wife of George, Prince of Denmark. In order to secure the Protestant Succession the Act of Settlement (12 & 13 Will. III. c. 2) was passed, by which the Crown, after the death of Queen Anne, was settled upon the Princess Sophia, Electress and Duchess Dowager of Hanover, the youngest daughter of Elizabeth, daughter of James I. of England, and the heirs of her body being Protestants. Sophia dying about seven weeks before Queen Anne, her eldest son, George Louis, Elector of Hanover, succeeded to the British throne, August 1, 1714, as George I.

The intrusion of the House of Hanover was not popular; the new king had no personal friends, while the adherents of the Stuarts were numerous and powerful. In 1715 they broke out in open rebellion, and again in 1745; both revolts were suppressed only after a great deal of vindictive bloodshed.

George I. came with little knowledge of English politics, and but little interest in English legislation. He was entirely ignorant of the language, and for literature and art he had the utmost contempt. He married Sophia Dorothea, Princess of Celle, and by her had two children. He died while on his road to Hanover, and his only son succeeded him on the throne.

George II. was born at Hanover, October 30, 1683, and came to England with his father in 1714. He married Carolina Wilhelmina Dorothea, daughter of the Margrave of Brandenburg-Anspach, and by her had a numerous family:—1, Frederick Lewis, Prince of Wales; 2, George, died in infancy; 3, William Augustus, Duke of Cumberland; 4, Anne, married to William, Prince of Orange, who died in 1751; 5, Amelia Sophia, born in 1711, died unmarried in 1786; 6, Elizabeth, who also died unmarried; 7, Mary, married to Frederick, Prince of Hesse-Cassel; and 8, Louise, married to Frederick, afterwards King of Denmark. George II. died Oct. 25, 1760. Frederick Lewis, Prince of Wales, eldest son of George II., was born at Hanover, Jan. 20, 1707; in 1736 he was married to the Princess Augusta of Saxe-Coburg. He had a family of nine children; *sons*—1, George Wm. Frederick, afterwards King George III.; 2, Edward Augustus, created Duke of York and Albany; 3, William Henry, created Duke of Gloucester; 4, Henry Frederick, created Duke of Cumberland; 5, Frederick William, who died young; *daughters*—1, Augusta, married to Charles, Duke of Brunswick; 2, Elizabeth Caroline, died young; 3, Louisa Anne, also died young; 4, Caroline Matilda, who at the age of fifteen was married to her cousin, Christian VII., King of Denmark, a most unhappy marriage. Prince Frederick died in 1751, nine years before his father, who lived till 1760, and was succeeded by his grandson, who ascended the throne as George III., and made it his boast that he was a true-born Englishman. George III. was succeeded by his son, who became George IV.; he died in 1830, and was succeeded by his brother, who reigned as William IV. On the accession of Queen Victoria, in 1837, the Crown of Hanover passed to her uncle, Ernest, Duke of Cumberland. In 1866 the Prussians, who had long coveted that country, found a pretext for seizing it and extinguishing the Monarchy. — *Whitaker's Almanac.*

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present only maintain a garrison at Halifax, and a naval establishment there and on the Pacific coast.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Queen, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, but is practically embodied in the present Militia Act, 49 Vic., chap. 41 (Revised Statutes, 1886). By it the militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:—

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Judges, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The number of men to be trained and drilled annually is limited to forty thousand, except as specially authorized, and the period of drill is to be sixteen days and not less than eight days each year.

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service is three years.

The Establishment of the Permanent and Active Militia of the Dominion, for the year 1895-96, is as follows:

RELIGIOUS STATISTICS OF CANADA.

The following table is a comparative statement of the numbers of the leading denominations in 1881 and 1891, showing also the proportion each denomination bore to the whole population at each census :—

Religions.	1881.		1891.	
	Number.	Proportion to Total Population.	Number.	Proportion to Total Population.
Roman Catholics	1,791,982	41·43	1,992,017	41·21

Salvation Army	.....	.....	13,949	·29
Other denominations	14,269	·33	33,756	·70
Not specified	*93,881	2·17	*89,355	1·85

*Pagans included.

From the census returns it is learned that there were 10,480 churches in Canada in April, 1891. This is an increase over 1881 of 1,828.

Divided among the denominations, the increase is distributed as follows: Baptists, 324; Roman Catholics, 301; Church of England, 415; Methodists, 322; Presbyterians, 411. All other denominations, 55.

Of the total number of churches, the Methodists have nearly 32 per cent., the Presbyterians and Roman Catholics 17 per cent. each, the Church of England 16 per cent., the Baptists 12 per cent., leaving 6 per cent. for "all others."

Taking the total population, there is a church provided for every group of 461 persons. Taking the several denominations, the Roman Catholics have one church for every group of 1,115 of their persuasion, the Church of England one for every group of 386 of its adherents, the Methodists one for every group of 251, the Presbyterians one for every group of 428, and the Baptists one for every group of 240.

During the decade 1881-91, the Church of England appears to have been the most active in providing places of worship for the people, the Presbyterians coming next, the Baptists third, the Methodists fourth, and the Roman Catholics fifth.

Territorially considered, the Church of England has provided 337 additional churches in the provinces east of Manitoba, and 78 in Manitoba and the other western provinces. Methodists have provided 227 in the eastern and 95 in the western provinces; Presbyterians, 302 and 109 respectively; Roman Catholics, 257 and 44, and the Baptists 305 and 19 respectively.

The Presbyterians became united as the Presbyterian Church in Canada in 1875. The Methodists were first united into one ecclesiastical organization in Canada in 1883.

The census returns showed that the number of clergymen of all churches in Canada, in 1891, was 7,164, an increase of 735 in the ten years.

POSTAL INFORMATION.

For List of Officials Post Office Department see page 96.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. It partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce. All postage must be prepaid by Postage Stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—Upon all cards intended for use as Private Post Cards the words "Private Post Card" must be distinctly printed or written. The name and address of the sender may be printed on the face of the card, but the face of the card is not to be used for advertising purposes. Private Post Cards must not exceed a size of 6 inches in length by 3⅝ inches in width, these being the dimensions of the larger official Post Card at one time issued by the Department. Cards exceeding these limits are to be treated as insufficiently paid letters. Private Post Cards are not transmissible to the United States.

United Kingdom.—Postage on Letters, 5 cents per half oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—Letters, 3 cents per oz. Newspapers, from office of publication for subscribers, free. Other matter same rates, etc., as to United Kingdom.

Bermuda.—Letters, 5 cts. per ½ oz. Newspapers and printed matter generally, 1 cent per 2 ozs.

United States.—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

It is very important to bear in mind that the postage upon letters for the United Kingdom and all Foreign Countries is calculated by the *half ounce* and *double* postage is charged on all unpaid letters.

Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 7 lbs is allowed); for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz. which must be prepaid by stamps

The rate to Great Britain and the United States is 1 cent per 2 ozs.

Rates of Postage on Letters and Newspapers for Foreign Places.

The rates on letters and newspapers for all parts of the world (see exception for United States and Newfoundland) are 5 cents per ½ oz. for letters, and 1 cent per 2 ozs. for papers.

Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post:—

1. On all pamphlets, occasional publications, printed circulars, prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, the rate is 1 cent for each 4 ozs. or fraction thereof.

2. On maps, prints, drawings, engravings, lithographs' photographs when not on glass or in cases containing glass, circulars produced by a multiplying process easy to recognize, exhibitor's entry tickets for Dominion or Provincial Exhibitions, botanical and entomological specimens when properly put up so as to prevent injury to the contents of the mails, sheet music whether printed or written, including music books whether stitched or bound (instruction books in music and instruction books in drawing accompanied by charts may however pass at Book-Post rate, which *see*), book or newspaper manuscript whether type-written or hand-written, printer's proof sheets whether corrected or not, such partly printed and partly written documents as deeds of land, mortgages made under seal (including chattel mortgages), insurance policies, renewal receipts when attached to the policies, insurance receipts sent in bulk from head offices to agents, militia and school returns, customs manifests, voters' lists when written or partly in writing, school or college examination papers, municipal assessment rolls, partly printed and partly written, Dominion and Provincial Government documents, statute labour returns, municipal returns in general, blank books, printed forms entirely blank, and printed stationery, the rate of postage is 1 cent for each 2 ounces or fraction of 2 ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or wrappers; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

Newspapers and Periodicals.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication to regular subscribers or news agents in Canada, the United States and Newfoundland, are sent free; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion, other than those addressed to regular subscribers or news agents, from office of publication, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing not more than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

The postage on specimen newspapers, and on papers and periodicals published less frequently than once a month is one cent per lb.

British and foreign publications received by mail may be reposted in Canada to subscribers in Canada at the rate of 1 cent per lb.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing not more than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom—sent in the Mails forwarded by Canadian Packet or *via* New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz. The English Post Office requires *each newspaper or periodical* to each address to be prepaid by postage stamp. If sent in packages the English Post Office declines to deliver them.

Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided the deficiency does not exceed 5 cents.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

United Kingdom and United States.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom must not exceed 5 lbs. in weight, and to the United States 8 oz., and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post or as fifth class matter.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following regulations:—

1. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.

2. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.

3. All Parcels must be securely and substantially packed and closed.

4 Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.

5. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Prepayment by postage stamp is required in all cases. Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Fifth Class Matter.

Postage rate once cent per ounce or fraction of an ounce, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, and not entitled to be posted at a lower rate than 5th class under one or the other classes, may pass as 5th class when addressed to any destination within the Dominion or United States. Fifth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 pounds in weight, nor 2 feet in length by 1 foot in width or depth. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 5th class matter is 5 cents in addition to postage

Money Orders.

In sending money by mail it is always best to transmit by Money Order if possible.

STEAMSHIP AND STEAMBOAT LINES IN THE DOMINION OF CANADA.

NOTE.—The numbers opposite each line of steamboats correspond with the numbers used in the list of Post Offices and Railroad Stations following. Inasmuch as steamboat lines are not fixed as are railroads but are constantly changing, this list must be used by shippers and travellers with caution.

As this list of Steamboat and Steamship Lines is entirely new, the publisher begs that those who use it will kindly help him to make it more perfect by sending corrections, additions or criticisms to Editor CANADIAN ALMANAC, 9 Front Street, West, Toronto.

a This mark signifies that the line is subject to interruption by the Seasons—Winter in some parts of the country, low water in other parts "d" or "Daily" means every day except Sunday.

THE CANADIAN FLAG.

By E. M. Chadwick.

Within the past year or two there has been much discussion about the Flag of Canada. Mr. Colin Campbell has in the Almanacs of 1894 and 1895 given a great deal of information on the subject of the Flags of the Empire, including that of Canada, which space would not admit of being referred to at length in this article, but it may be observed that besides the various Royal, Naval, Military and Civil Flags which may be classed as Imperial, there are officially recognized or authorized local flags of the various parts of the Empire, which may be described in a general way as consisting of three, viz. :—(1) The Official Flag of the Governor or Lieutenant-Governor, which is the Union Jack, with a badge of the State or Colony or Province under his Government placed upon it in the manner prescribed in detail. (2) The Blue Ensign, being that worn by Colonial Government Ships, consisting of the blue ensign of the Royal Navy Reserve with a badge of the Colony in the fly. (3) The Red Ensign, which is the ordinary Civil Flag, and also that of the Local Mercantile Marine, being the British red ensign with the badge of the colony in the fly.

These three Flags as at present authorized for Canada bear as a badge the Arms of the Dominion, being those officially granted at the time of Confederation, consisting of the arms of the original four Provinces. As these arms have been somewhat misunderstood an explanation of them may be desirable. They are in the highest order of heraldry, and every detail of them has a distinct reference and purpose. The Arms of Ontario are composed of the St. George's Cross—the ancient Naval Flag of England, and which is so still but with the Union Jack added to it—together with a green field, which may perhaps be claimed to be a compliment to the great number of Irishmen who probably constituted the majority of the original settlers in Ontario, and who are thus aptly recognized, there being in fact no other opportunity in this composition to do so. The green field is charged with the Maple Leaf in its natural colour of gold, that being the badge which has been used both officially and unofficially, and by very general popular acceptance, in this Province as well as others from an early date. The Arms of Quebec contain a gold lion on a red ground, which is heraldically known as a "Lion of England" and is typical of England, combined with blue fleurs-de-lis on a gold ground, typical of France, the arms of which country anciently, and until some time after Canada became English, consisted of gold fleurs-de-lis on a blue ground. The reversing of these colours is the proper mode of symbolizing a country which has had a French origin, as distinguished from the parent country, and is in fact a most delicate courtesy to France, as well as a compliment to the French Canadians, for if the original colours of gold on a blue ground had been used that would, according to ancient heraldic usage, have been discourteous to France. The same composition repeats, in its natural colour of green, the Maple Leaf, which has had the same long continued use and general acceptance in Quebec as it has had in Ontario. In the Arms of Nova Scotia our fellow citizens of Scottish origin, to whose thrift, energy and enterprise all parts of Canada owe so much, are referred to by the thistle, which in this instance is also appropriate to the name of the Province, and reproduces the badge formerly used on the provincial coinage, being in fact the only badge shown on that coinage excepting the penny and half-penny of 1856, which have the mayflower. The Arms of the Province of New Brunswick are composed of the lion of England and a lymphad or ancient galley, which is typical of a maritime people, and also is the heraldic equivalent of the handsome frigate or ship badge of the earlier coins of that Province. Flags have frequently been made with quarterings added to those above described as representing the Provinces which have subsequently entered the confederation, but these changes have not been authorized, and the flags so made are illegal, as Mr. Campbell has pointed out. The laws regarding colours used at sea are very stringent, and the most precise compliance with authorized designs is strictly insisted upon, so that the correctness of the flags made for sale is a matter of importance.

Objection has been made to the use of the Arms as a badge for the Flag on two grounds :—Firstly, because they are so complicated that a Canadian "cannot tell what the flag of his country is." This reason, however, should scarcely be admitted as valid, as it simply means that the person who makes such a statement admits his own ignorance and his inability or unwillingness to become better informed. Secondly, that being complicated they are not readily visible at a distance, especially at sea, an objection in which there is a great deal of force, so much so that upon this ground propositions have been made for the adoption of some simpler badge, and the subject has been freely discussed in the public press with numerous designs for a badge, besides which many suggestions have been made to the Government. The great majority of the designs, however, are inadmissible, as they do not conform to what may be laid down as four essential conditions, namely :—

1. The Badge must not be un-British in character.
2. It must be something which may be generally recognized as Canadian
3. It should conform to heraldic propriety.
4. It must be simple.

Various combinations of crosses have been suggested, but these could not well be admitted, because they can hardly be other than a repetition of the Union Jack, or its component parts, which in its proper complete form must necessarily appear on the Flag in any event and therefore should not be repeated either in whole or in part in another part of the same flag. A few suggestions have been made to adopt in some form in combination with other things the French tricolour, but that could not be done without the consent of France, for which it is scarcely likely that Her Majesty's Government would make application ; and also, as Mr. Campbell has shown in one of his articles, it would be an absurd anachronism in Canada, for the tricolour never was in any manner connected with Canada or the

French Canadians. The beaver was ruled out at an early stage of the discussion, and properly so, for no great nation has ever selected for its emblem a weak or insignificant animal, such badges being nearly always animals which convey the idea of power or courage. One suggestion attracted a good deal of attention, having been made by Mr. Sandford Fleming, who is so well known to the Canadian public, namely: a star with rays for each Province. This, however, while meeting at first with a certain amount of approval, has been vigorously objected to upon several grounds, but chiefly as, in the opinion of many, offending against the first and second of the essential conditions above specified, it being associated in the minds of many Canadians with the United States, a feeling which has been echoed by American papers, who welcomed its appearance as an imitation of their flag, and an indication of an annexation sentiment; and it has been objected to as republican, on which point alone there has been much expression of opinion. There is also a further objection to this proposal, that the red ensign with such a badge would be liable to be confused with the private colours of the White Star Line of Steamships. A great number of suggestions have been varieties of the Maple Leaf badge, which is generally recognized all the world over as typical of Canada. Many of these last are artistic and suitable for decorative purposes, but unsuited for use in the Flag, as wanting in the desired simplicity, and in many instances containing minute parts which could not be properly represented on a flag. The result, generally speaking, of the expression of opinion is, that if any change is made, it should be the Maple Leaf in a simple form, either the single leaf, which is advocated by some persons, and of which a coloured drawing has been published by the Toronto *Week*, or the triple leaf, already adopted in the Arms of Ontario and Quebec which last is represented in the illustrations which are published herewith. The adoption of this form of the badge has been urged by the writer as preferable to the single leaf, because it is more pronounced in character, and can probably be distinguished better and at a greater distance. The Colonial badges used in flags are generally shown on a white disc. If that should be used, the colours of the Maple Leaf must be green or red, both of which are its natural colours; and for greater facility of distinction it has been proposed that on the Blue Ensign the badge should be red, and on the Red Ensign green. A suggestion further has been made for the adoption, in place of the disc, of a white diamond for better distinction from other Colonial flags, and in such case the badge would be displayed on that in the colours just mentioned. There is, however, no reason why either disc or diamond should be adopted, for the badge is one which may quite conveniently be displayed directly on the field of the Flag, and this, while complying with the essential requirements of Admiralty regulations would be a striking variation from other Colonial flags, and consequently more readily distinguishable. If this were adopted the colours on both Blue and Red Ensign must be gold or yellow, also a natural colour of the Maple Leaf.

It has been asserted that the Maple Leaf is an Ontarian badge only, but such an assertion is quite erroneous. Its long and general use in Ontario is not questioned. In Quebec its use has been fully as long, and if anything more general, as is abundantly evidenced by the coinage. In New Brunswick it appears on coinage both official and unofficial prior to Confederation. The former coins of Prince Edward Island also had on them a maple tree as emblematic of that province. In Manitoba and the North-West Territories, which have only existed since Confederation, the badge is both officially and popularly regarded as the national badge. In the remaining provinces, British Columbia and Nova Scotia, it had little or no use before Confederation, but since then has been accepted officially, and popularly also to some extent, but not very generally. It is officially known to the Imperial Government as the National Badge of Canada, and consequently the flags of the Governor-General and of the Lieutenant-Governor of every province have upon them a wreath of maple leaves. It is also widely known in a similar manner in other parts of the Empire and in foreign countries.

Upon a consideration of the whole question, therefore, it would certainly seem that the Maple Leaf, as complying with all four of the essential conditions above stated, is pre-eminently the proper badge to appear on our flag, if any change is made by which anything is substituted for the armorial badge in present use. It is, however, not at all certain that any change will be sanctioned, and it is quite possible also that the action of the Admiralty may be the rescinding of permission to use any distinction on the red ensign, in which case Canadian merchant ships would be required to revert to the use of the ordinary colours of the British merchant. There are many who dislike the "defacing" of the ensign in any manner, but the use of a distinguished mark upon it in the manner prescribed by authority is not objectionable upon any ground, sentimental or otherwise, and has many practical advantages. There are, in fact, a great number of such variations of the national ensign, both in England and in the Colonies, but these being only of local or limited use, are little known.

The Flag discussion has involved frequent reference to "Arms" and "Badges," the former of which are more or less generally understood—and much misunderstood also—but there are not many who have a clear understanding of what a badge is, and the difference between it and a coat of arms or crest. Heraldry, which in some form or other has existed in all ages and in most countries, has been defined as the use of insignia to distinguish or symbolize (1) person, families, tribes, nations; (2) the corporate existence of individuals associated or banded together for a common purpose, military (armies), nautical (ships), ecclesiastical, commercial, sentimental, or otherwise; and (3) as a logical consequence, Governments, Municipal, Provincial, or National. Such insignia may be roughly classified as consisting of three forms, Flags, Badges, and Armorial bearings, the last being a development of the two former; an armorial achievement is in fact a collection and scientific arrangement of badges. A badge is heraldry in its simplest form; it is a simple object used in a pictorial or unconventional manner to (comparatively speaking) typify or symbolize anything which may be symbolized in a more pronounced or scientific manner by a flag or coat of arms. Such symbols are of frequent use as national emblems, and as such are generally of a kind of spontaneous origin, while the flag and arms are the production of much thought and consideration, and are, presumably at least, composed by persons especially skilled in matters of the kind. A national badge, consequently, is the popular symbol or emblem which typifies the nation in a simple manner, intelligible by all persons. Badges have been at all times readily adopted in flags, and history records many instances of such use being effectual in arousing or fostering national sentiment or patriotism.

THE ROYAL MILITARY COLLEGE OF CANADA.

Last year, we represented the Royal Military College mainly from the standpoint of national and patriotic sentiment. Those who will refer to the remarks at page 218 of the CANADIAN ALMANAC for 1895, will there find set forth many cogent reasons for the maintenance of this College, as an important and indeed necessary adjunct to our system of Militia and Defence, and a valuable connecting link between that system and the regular Forces of the Empire, of which so many Officers, within a comparatively very short period, have been drawn from the classes of our graduates. The record, moreover, which those young Officers have already made in Her Majesty's Army, is one of which the Dominion may well feel proud. The maintenance, therefore, of the Royal Military College as a permanent branch of the Government service of Canada is admittedly one of the necessities of our national position, and a part of our contribution to the gradually developing scheme of Imperial defence. We purpose this year to dwell upon some of the more practical features of the institution, as regards the personal interests of the Cadets themselves. It will be satisfactory to note (as, however, our limits will only permit us to do very briefly) how the College has quickly proved a stepping-stone to advancement, distinction and emolument to those who have taken advantage of the splendid educational facilities which it offers, and have gone forth equipped for the various professions and callings of life with a Royal Military College diploma. The admirably combined physical, military and intellectual training which its varied routine and course of instruction afford, must be simply invaluable to a young man, no matter what his path in life is to be. In no other form of training of youth can there be such a skilful and successful combination of high mathematical and general mental culture with splendid physical development, military discipline and a knowledge of warlike science and administration, as in a thoroughly organized Military College such as ours, where the superior technical instruction of the Imperial service is united with native Canadian talent, some of the College graduates themselves, now Imperial officers, having been added to the instructional staff, to give a leading hand to the young compatriots coming after them. This thorough all-round training is not as well understood or appreciated as it should be. As a military school, however, the advantages of the College are pretty well recognized, and that phase of its work has already been dwelt upon in last year's CANADIAN ALMANAC.

To those who aspire to that profession, it is only necessary to offer the following synopsis of the number of ex-Cadets holding commissions in Her Majesty's Regular Army and in the military services of Canada, in the year 1895 :—

Royal Military College Staff		2

		105

One of the Canadian Officers of Her Majesty's Army, in the above list, is to be added to those at present serving in the Permanent Militia of Canada, making thirteen ex-Cadets now holding commissions in our own Regular Force ; three more of them are Instructors in our Royal Military College, or five Graduates in all on the College

instructional Staff; one is Her Majesty's Deputy Commissioner and Vice-Consul, Niger Coast Protectorate; one is on the Staff of a Royal Military College in England; and one on the Staff of the School of Military Engineering, Chatham, England. Another ex-Cadet is a Major in the Regular Artillery of New South Wales. To this number must of course be added those whose brief but brilliant records since leaving the College have been cut short by death, such as Mackay, who had already won the Distinguished Service Order, and died while Acting Administrator of the Imperial British East Africa Company; Stairs, who served in Stanley's famous expedition, and who died at Zambezi, whilst in command of the Katanga Expedition sent out by the King of the Belgians; Robinson, Commanding Royal Engineer, West Coast of Africa, killed in action at the moment when his conspicuous heroism would undoubtedly have gained for him the Victoria Cross.

Some 30 of the Graduates and ex-Cadets of the College were on Active Service, during the N.-W. Rebellion of 1885; and from those Graduates all the personal Staff Officers, such as Aides-de-Camp, were selected: Captain H. E. Wise; Lieuts. A. E. Doucet, H. C. Freer, J. W. Sears, F. J. Dixon, H. B. Strange, J. L. Weller, Staff-Adjutant, R. W. Leonard, Staff- Officer of Transport, etc.

That this College at the same time qualifies equally well for other pursuits in life may be gathered from the following very incomplete statement of the avocations of a number of ex-Cadets in civil life who have added this information to their respective post-office addresses for entry in the Reference book that is kept for the mutual information of members of the Royal Military College Club. The list includes those who are now filling, and those who since leaving College have filled, the positions or occupations specified :—

Marie, Cape Breton and Newfoundland, and is at present stationed in the latter place.

The Royal Military College Club is indeed a valuable, though purely voluntary, adjunct to the Institution itself. This Club is composed of the ex-Cadets, for the purpose of keeping up their association with the College and with each other, for the advancement of the welfare of its own members and that of the present Cadets and the College generally. The *esprit de corps* evinced by this active and energetic association, in its printed Journal of Proceedings, annually published, speaks volumes for the good work done by the College, in the loyal enthusiasm shown for it, and the emphatic commendation which is given by those who have passed through it who are now in active life, and therefore apply to it the most crucial test of all—that of actual experience. A regular business meeting of the Club is held annually, and by the energetic action which it has taken, important concessions have been obtained from professional and other authorities, for those holding R. M. C. diplomas, as mentioned below. Papers written by absent members, serving in the Army abroad, etc., upon various topics of interest and utility, are presented at these meetings, and embodied in the printed Minutes.

A list, showing the names, rank and duties, of all the Royal Military College Staff, will be found in the Militia List, on page 101 of this Almanac.

THE NORTH-WEST MOUNTED POLICE FORCE OF CANADA.

By Colin Campbell, *Asst. Paymr., R. N. (Retired).*

"The like of which is not known on this side of the boundary line"—is what a writer in the *Century Magazine* says, in an article upon the Great Plains of Canada, speaking of what he truly styles our "efficient Mounted Police Force."

When the Bill to amend and consolidate the various Acts relating to this Force was before the Senate of Canada, during the session of 1894, the Hon. the Minister of Agriculture spoke thus of the Mounted Police: "Every day those men are becoming more useful, and we are using them for various services. Last year my own Department used the Mounted Police for the purpose of looking after cattle in quarantine. If I had not had the men, it would have cost the country over $30,000 for the service that I had them perform there. The whole of that service was performed for about $5,000, which will go from my Department into that of the President of the Privy Council, who is in charge of the Force. It has been said that the Indians are diminishing in number. I do not think that they are decreasing. We are doing the best we can to improve them, and perhaps as they improve they become more exacting and require more attention and more vigilance on the part of the Police. The Mounted Police are doing a very great service, and at present the number is not in excess of what it should be." The Hon. Senator Ogilvie said: "I have been a great many years intimately acquainted with the movements of that Force in the North-West, and have known a great many of their officers, and have been about with them while they were discharging their duties. I have seen them doing all kinds of work, acting as collectors of customs, as policemen, quelling disturbances, keeping riots down while the railway was being built—in fact I can say without the slightest hesitation (and I speak with *connaissance de cause*) I doubt if there is any force in the world of the same number that has ever done as much good as our North-West Mounted Police. * * There is more intelligence in that force than you will find in any regiment anywhere else. When they turn out they make a splendid appearance. They have the respect of the white people of the North-West and of the Indians also. * * I hope the Government will think about a great many other things before they think of reducing this force. There is plenty of work for them to do, and they save sometimes in one year more than they cost the country in ten years." In the House of Commons, where the Bill was subjected to the usual close scrutiny of an ever vigilant Opposition, and objections were raised upon several matters of administration and detail, the necessity for such a force and the expediency of its continued maintenance were generally admitted, and similar testimony was given as to the faithful and efficient service which it has always rendered.

Mr. Davin, M.P. for West Assiniboia, made this emphatic remark: "From what I know of the North-West, and of the services discharged by the Mounted Police, and from what I know of the money they have saved to the Government of Canada, so far as regards our Indians from what I know of their good services performed as

agents practically of the Department of Customs, and also as regards the peace and harmony they have preserved in that country, I say that in our whole administration I do not know anything that relates more truly to real economy than the existence of the North-West Mounted Police."

The Hon. W. B. Ives, then President of the Privy Council, under whose control this Force was at that time, observed: "The State of Montana is immeasurably smaller in extent than the territory over which our North-West Mounted Police have jurisdiction. There are about the same number of Indians in Montana and Dakota as in the Canadian North-West; and whereas we use a force of about 800 men, who have been successful to a degree in preserving order in that country, the smallest number of troops the United States have found sufficient for a much smaller territory, and with about the same number of Indians, belonging to the same tribes, is some 3,500 to 4,000 men. Any one familiar with the state of things in their country and ours must admit that our force, though only a small fraction of theirs, has succeeded admirably."

When the estimates were under discussion, during the session of 1895, Mr. Mulock having deprecated any undue or hasty reduction in the strength of the force, and discussion having arisen upon the point, the Hon. T. M. Daly, Minister of the Interior, remarked that "there is no more efficient force in the whole Dominion. The men are a credit to this country, and to the officers who command them, and the services they have rendered Canada speak volumes for the force. I do not think that any person at all conversant with its work will say that it does not do its work most efficiently and economically. * * * The force is recognized by those competent to give an opinion as the most efficiently managed force in the British possessions. Military men who have had to do with similar organizations have always said, on inspection of the Mounted Police, that it is one of the finest bodies of men to be found in any of our British possessions, not excepting the Australian or the Cape Colony Police."

This admirable success has been due to very simple causes, reflecting credit alike upon the Force and the country that maintains it. In the first place, as stated in Parliament, the North-West Mounted Police is composed of a very superior class of men. Secondly, the strict discipline of a British service has been carried on in it. And above all, its work has been in truth the administration of justice, even-handed British justice at that, without fear or favour. The Indians, close observers and deep thinkers in their own fashion, admirers especially of dauntless courage, could not help respecting the fearless way in which these troopers, often a mere handful, marched into the native encampments and arrested delinquents—and delinquents only—with scrupulous avoidance of bloodshed. This is in marked contrast with American modes of dealing with the aboriginal tribes, but it is only fair to the United States troops to say that they doubtless deplore the harsh measures they are sometimes compelled to take. The officers of the North-West Mounted Police have a good deal of communication with the American officers across the frontier, whom they have always found very friendly and willing and anxious to co-operate.

Our aboriginal races quickly perceived, moreover, that these warriors of justice had come there to be the Indians' own protectors, both against their worst enemy, the whiskey trader, and against lawless white men of any description; that, while the Indians were strictly held to account as subjects of the British Queen, yet "her Crown and dignity" could and would protect the red subject as fully and fairly as the white. In spite of all the difficulties of the situation, the result has been in the main as honourable to the red race as to the white, the Indians generally proving themselves not unworthy of the consideration shown them. The solution of the Indian problem of the Canadian North-West was ably commenced by this small band of intrepid, well-disciplined and well-conducted Police.

Chivalrous and indeed romantic has been the record of this Force, amid the difficulties and dangers which it faced and quickly surmounted in its earlier days. Think of the small body of only three hundred men that in 1874 made its way into a still almost trackless region; into the heart of the Indian country, the pioneers of the white men who were about to overrun and to possess the hunting-grounds of the aboriginal tribes, but of whom the principal specimens the red men had as yet seen, outside of Hudson Bay Company posts, were hands of unscrupulous men from over the border, establishing themselves in armed stockades to fleece the Indians and to ruin them with the whiskey traffic. The Mounted Police were at once soldiers, constables and cultivators; for, depending at first largely upon their own resources, a portion of them had to farm the posts for their own support, while their comrades patrolled the vast region entrusted to their vigilance, quickly suppressing the whiskey traders, holding the wild spirits of the tribes in check, and even keeping the peace, in a large measure, between the different warlike races themselves. And Canada may well be proud of this "fraction of a Force" that, in a word, as the President of the Council truly said, succeeded admirably in this arduous, difficult and dangerous mission.

In the autumn of 1873, 150 men were enlisted in eastern Canada and sent to Manitoba by the Dawson route. During the winter of 1873-4 they were quartered at Lower Fort Garry, about 20 miles from Winnipeg. Lt.-Col. French of the Royal Artillery, who had been in command of the School of Gunnery at Kingston, was appointed Commissioner, and in the spring of 1874 he engaged additional men to bring the total strength of the Force up to 300. Horses and equipment were purchased, and the whole, including those who had wintered at Lower Fort Garry, were brought together at Dufferin, now Emerson, Man. The organization was then completed, and during the summer the Force marched from the Red River to the Rocky Mountains. A post was established in the foot-hills of the mountains, now known as Fort Macleod. One Division marched from there north to Edmonton, and established a post now known as Fort Saskatchewan. The Commissioner, Col. French, with a considerable portion of the Force, returned late in the fall, and established them at Fort Pelly, on the Assiniboine river, which had been named by the Government as the head quarters of the Mounted Police. From time to time, as necessity required, new

posts were established, and within two years after the organization of the force, the whole of the North-West Territories, from the boundary to the Saskatchewan river, was well under the control of the Police. In 1877, on the retirement of Lt. Col. Freneh, Lt. Col. Macleod, who had been Assistant Commissioner, was promoted to the command; and it may here be mentioned that to the taet, discretion and good judgment shown by Col. Macleod, Canada is largely indebted for the successful treaty negotiations with the Blackfeet Indians, and their continued faithful allegiance.

A few years later the Force was increased to 500 men and horses, and on the outbreak of the North-West Rebellion it was further increased to 1,000, being divided into ten Divisions, nominally of 100 men each, called respectively the Depot and A, B, C, D, E. F, G, H and K Divisions; Depot, with generally one of the lettered divisions, always remaining at regimental head quarters, Regina. As a measure of economy, the strength was, in 1894, reduced from 1,000 to 750 Non-commissioned officers and Constables, the organization being correspondingly reduced from ten to eight Divisions, including Depot head quarters; but, should the necessity arise, more men would be immediately engaged, and the ten division organization be restored. The Divisions are posted throughout the Territories at suitable points, there being, under the present reduced establishment, three with divisional head quarters near the international boundary, three far to the northward, and the remaining one forming, with that at Regina, an intermediate line along the Canadian Pacific Railway. Each Division has its own outposts, varying in strength from two to ten men; and the men on outpost duty patrol both the international boundary for the suppression of smuggling and the country in their neighbourhood for the maintenance of order and the enforcement of the law, any arrests made being immediately reported to divisional head quarters. They also do some good work in obtaining reports from the settlers and collecting statistics as to the state of crops, etc. Especially valuable serviee has been rendered by these soldiers-of-all-work, in guarding against and suppressing the prairie fires so frequently started in spring and fall through the carelessness of settlers, but frequently most disastrous in their results. The Police are empowered to turn out the settlers, when necessary, to assist in this work; should the people refuse to obey the summons they are liable to arrest and heavy fine.

The Officers of the North-West Mounted Poliee are a Commissioner and an Assistant Commisioner, with a Superintendent and two Inspectors to each Division.

Constable, North-West Mounted Police.

There is also an Inspector who acts as quarter master at head quarters, and another who acts as paymaster. There are five surgeons, who are stationed at the principal posts; the services of local medical practitioners are employed when requisite for the small detachments. The horses are attended to by a veterinary surgeon and an assistant veterinary surgeon, with veterinary sergeants attached to each division, the majority of the latter being qualified veterinary surgeons.

The pay of the Force is as follows:

Commissioner	$2,600
Asst. Commissioner	1,600
Superintendents	1,400
Inspectors, Surgeons and Veterinary Surgeons	1,000

Staff sergeants receive from $1.25 to $2.00 per day;

ordinary duty Sergeants $1.00; Corporals, 85 cents; Constables, 50 to 75 cents per day. Extra pay is allowed to artizans, such as shoeing-smiths, saddlers, etc. The period of engagement is five years, but men who have served for one term may re-engage for three or five years.

The full-dress uniform is a scarlet tunic with yellow facings; blue cloth riding breeches with yellow stripes; white helmet and cavalry boots; overcoat, cavalry pattern. In winter the men wear regulation fur coats, caps with badge, and moccasins, when the duties they are called upon to perform necessitate such being worn. For prairie work, a rough and more suitable uniform than the full-dress is furnished.

Although a civil force, the Mounted Police are drilled as a military organization, and may at any time by the passing of an Order in Council be practically converted into Militia. They have several field guns, and gun detachments are always in readiness to take the field. In fact, they can act at any time as Cavalry, Field Artillery or Infantry. The artillery armament has hitherto consisted of six seven-pounder guns, four nine-pounder guns and two mortars. They have hitherto been armed with the Winchester repeating carbine, and the Enfield revolver. It is understood that in the early future the Winchester will be replaced by the new Lee-Metford carbine, and the field guns by Maxim machine guns. 200 Lee-Metfords have already been issued, and two Maxim guns were on the way at the date of this article being written. The physique of the Force is very good, the average height being 5 ft. 9½ inches.

There are still serving in this Force a number of men who joined at its organization in 1873-74. Evidence of the popularity of the service is to be found in the fact that between 70 and 80 per cent. of the men whose periods of engagement have expired re-engage for another term.

It would be difficult, within the limits of a short article, to describe the various duties performed, and the good services rendered by the North-West Mounted Police. In early days, as already stated, they were mainly employed in looking after the Indians, and there is abundant evidence how well that important duty was performed. On the outbreak of the rebellion in 1885, the Force came under the control of the Major General Commanding the Militia, bearing its full share of the hardships, during that brief but arduous campaign. The progress of settlement of the country has largely increased the duties and responsibilities of the Force, and has necessitated the establishment of many small detachments of from two to eight or ten men.

A traveller passing through the country may see the Police battling with prairie fires, enforcing the quarantine regulations with regard to cattle, horses and sheep, collecting customs duties, watching smugglers, chasing horse thieves, enforcing the fishery regulations, conveying lunatics and prisoners from place to place, attending judges and magistrates generally in connection with the trial of offenders against the law, or collecting weather, crop and other information required for statistical purposes. New settlers, especially foreigners, look to them for advice; and they are the means by friendly personal counsel of settling many a dispute that would otherwise result in needless litigation and ill-feeling among the settlers. Speaking generally, the Police constitute a pioneer force in aid of all the departments of the public service in the North-West Territories. Finally, time-expired men of this Force have become, in their turn, some of the most valuable settlers of the country, from their superior discipline, varied experience and intimate knowledge of the region to which they have so long given security and protection.

The Department of North-West Mounted Police is a branch of the civil government at Ottawa, under the control and management of the President of the Privy Council, Sir Mackenzie Bowell, Mr. Frederick White, the Comptroller, being Deputy Minister. Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The Principal must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of $400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 35 Collegiate Institutes and 94 High Schools, with 23,523 pupils, in Ontario in 1894.

Public Schools.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,977 Public (including 328 separate) Schools, with 483,203 pupils, in Ontario in 1894.

Educational Museum.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

Total Number of Educational Institutions

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1894, was 6,112, attended by 514,016 pupils, and expending $5,291,389 in their support.

THE LAKE ST. JOHN TERRITORY.

The territory in question extends from the head of navigation of the river Saguenay, at Chicoutimi, to the northern boundary of the Province of Quebec, a distance of 220 miles, and from the sources of the waters flowing into Lake St. John, from the East, to the river St. Maurice, and embracing the valley of the river Batiscan, a distance of 200 miles, the whole forming an area of 44,000 square miles or about 28,000,000 acres. Comparatively little is known of this great country, with the exception of the valley of Lake St. John, which, within the last few years, has been colonized with great rapidity, and now contains a population of some 40,000.

The Saguenay and St. Maurice regions are already the field of large lumbering operations, estimated at 60,000,000 feet, B.M., per annum, or equivalent to nearly one-fourth of the whole export of sawn lumber from the port of Quebec. The country is thus described by a gentleman who visited it recently:

The Soil "Is almost universally composed of a rich grey clay, the land seems to be inexhaustible. At Pointe-aux-Trembles I was shown a field of wheat, which had been producing that grain for the last fifteen years, without the application of any manure; and the grain I saw this year was as fine as any to be found in this district. Truly one is struck with wonder at the richness of the soil, for I believe there is none richer in Canada."

The climate of the Lake St. John region is said to be that of Montreal; there is no doubt of its being superior to that of Quebec. The snowfall is certainly less. In fact, farmers complain that they do not get good sleigh roads till late in the winter. On the 25th September this year I remarked that the leaves of the trees were very little tinted, and potato stems were still green. Wheat and all grains ripen and produce abundantly, as may be seen from the following extracts taken from the census returns:

	1861.	1871.	1881.
Wheat, bushels	10,912	136,099	154,589
Oats, "	39,316	117,249	211,216
Barley, "	30,922	71,210	47,025
Other Grains	.....	.....	108,183
Potatoes, bushels	101,382	156,996	287,238

	1861.	1871.	1881.
Hay, tons	3,648	5,966	16,347
Butter, pounds	61,777	148,106	293,127
Head of live stock	18,746	44,772	59,797
Tobacco, pounds	.....	.....	67,437
Population	10,478	17,493	32,409

Potatoes, carrots and other vegetables yield abundantly and are of immense size. Wheat is of course the great test of the soil and climate of any agricultural country. Let us then compare its production at Lake St. John with the best districts of the Province, viz: The Eastern Townships, and we find that the census returns show in 1881:—

	Population.	Bush. Wheat.	Bush. per 1000 of pop.
Chicoutimi	32 409	154,589	4,800
Compton	19,581	34,181	1,800
Stanstead	15,556	37,727	2,400
Huntingdon	15,495	24,378	1,600

Comparison between the temperature, and snow-fall at Roberval and at other places in Canada, each winter season (from January to March inclusively) and each summer season (from July to September inclusively). The observations for Roberval extend from April 1888 to May 1890, inclusively; those for Moose Factory, James Bay, from the year 1877 to the year 1882. All these observations are taken exclusively from the official reports of the Meteorological Department at Toronto.

The Independent Order of Foresters.

(ASSESSMENT SYSTEM.)

THIS Fraternal Benefit Order was founded in Newark, New Jersey, on the 17th June, 1874, and extends all over Canada, the northern portion of the United States, and throughout Great Britain and Ireland. The system of government adopted by the Order is not only thoroughly democratic, but simple in the extreme. The government is vested in a Supreme, and in the High and Subordinate Courts scattered throughout its jurisdiction.

The Supreme Court is not only the legislative but it is also the Supreme governing body of the Order, and is the final court of appeal in all cases. It is composed of its officers who are elected or appointed at each regular triennial session thereof, and the representatives elected by the High Courts in the various States and Provinces of the United States and Canada, and in the British Isles. Seven of the chief officers of the Supreme Court form the **Executive Council,** who in the *interim* of the Sessions of the Supreme Court, manage the affairs of the Order in accordance with the provisions of its Constitutions and Laws.

The High Courts, which correspond to Grand Lodges of other Societies, have control of the Order in each Country, Province or State, and are composed of its officers who are elected annually or biennially as the case may be, and the delegates elected by the Subordinate Courts within their respective territorial jurisdictions. At the present time there are six High Courts in the British Isles, seven in the Dominion of Canada, and seventeen in the United States, extending from Maine to California.

The Subordinate Courts are located in any healthy locality where a sufficient number of good men are found, willing to join hands for the mutual protection of themselves and families, and apply for a Charter for a Court. These Subordinate Courts are controlled and managed by the members thereof. They are excellent educational centres for the instruction and the training of the members in the conduct of public business and in habits of thrift and self-reliance. From them delegates are sent to the various High Courts, which elect, as already stated, the brethren who constitute the Supreme Court. It is pre-eminently an Order of the people, by the people, for the people.

The I. O. F., from its organization in 1874 to the year 1881, was like all the older Societies, a Mortuary Assessment Organization. In 1881 the present leaders came into power, who changed its Constitutions and Laws and placed the Order on its present foundation. From that time it has enjoyed a continuous and a constantly increasing prosperity.

PHENOMENAL GROWTH AND PROSPERITY.

The following tabulated figures will show the marvellous growth of the Order since its re-organization :

Month.	Year.	No. of Members.	Balance in Bank.
January,	1882	1,019	$ 3,555 47
"	1883	1,134	2,769 58

"	1893	43,024	580,597 85
"	1894	54,484	858,857 89
"	1895	70,055	1,187,225 11
July,	1895	80,765	1,346,426 58
August,	1895	81,795	1,383,828 36
Sept.,	1895	82,651	1,430,635 50
October,	1895	83,455	1,473,257 08

The cause of this unexampled prosperity and growth of the I.O.F. is due to the fact that its foundations have been laid on a **Solid Financial Basis**, and every department of the Order has been managed on business principles, thereby securing for all Foresters large and varied benefits at the lowest possible cost consistent with **Safety** and **Permanence.**

Though the I.O.F. has already paid over three million dollars in benefits, as well as a large sum for management expenses, yet the accumulated funds of the Order stood, on the 1st November, 1895, at over **One Million Four Hundred and Ninety-Two Thousand Dollars.**

Another remarkable circumstance is that the death rate of the Order for 1894, being the *twenty-first* year of its history, was only 5.39 per 1,000, showing the great excellence of the I.O.F. system of medical selections.

In addition to the Social and Fraternal Benefits which a Forester enjoys by virtue of his membership in this great Fraternal Order, he secures for himself and family the following

MATERIAL AND SUBSTANTIAL BENEFITS.

For Himself.

1.—Free medical attendance Benefit in the person of the Court Physician, within whose jurisdiction the Brother is taken ill. Some Courts, in addition, furnish medicine free, as well as trained nurses, if thought necessary by the Court.

2.—Sick Benefits of from $3.00 to $5.00 per week.

3.—Total and Permanent Disability Benefit of $250, $500, $1,000 or $1,500.

4.—An Old Age Benefit of $50, $100, $200 or $300 a year.

For His Beneficiaries.

5.—A Funeral Benefit of $50.

6.—A Mortuary Benefit of $500, $1,000, $2,000 or $3,000.

The cost of admission into the Order in most Courts is only $7.00 to $9.00, besides the medical examination fee, which is $1.50 if you are taking only $500 or $1,000 of Mortuary Benefit, and $2.00 if taking $2,000 or $3,000.

To secure the benefits set forth in Nos. 3, 4, and 6, each member pays a small rate at age of entry, as laid down in the schedule below. These rates may be paid monthly, quarterly, semi-annually or annually, at the convenience of the member, and they do not increase as the member grows older, but remain the same so long as he is continuously in good standing in the Order.

The following are the monthly rates in the Ordinary Class for some of the principal ages, beginning at 18 years of age, which is the minimum age for admission, while 54 years is the maximum age for admission :—

AGE.	$500	$1,000	$2,000	$3,000
18	·30	·60	1·20	1·80
25	·34	·67	1·34	2·01
30	·36	·72	1·44	2·16
35	·39	·78	1·56	2·34
40	·45	·90	1·80	2·70
45	·65	1·30	2·60	3·90
50	1·25	2·50	5·00	7·50
54	1·50	3·00	6·00	9·00

There are no Assessments at Death.

The Law Society of Ontario.

The Law Society was first established in 1797 by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under Revised Statutes of Ontario, c. 145, 1887, the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

The Queen's Bench and Common Pleas Divisions have power also, at their discretion, to hold sittings in banco in time of vacation (except long vacation), by virtue of a rule or order of the Court, respectively to be made in or out of term, for the hearing of such special cases or rules for new trials as shall be named in a list to be attached to any such rule or order, and for giving of judgments in cases previously argued, and for disposing of such other business as the Court in its discretion shall see fit.

LAW CIRCUITS.—*Sittings for Hearing of Actions.*—In the Counties of York, Wentworth, Carleton and Middlesex, there is held a third such Court in every year, in the vacation between Michaelmas and Hilary Terms; and in the County of York there is held a fourth such Court, between Easter Term and the first day of July. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually on or before the third day of Michaelmas sittings and severally elect, by a majority of votes, a Judge from their respective Courts to be placed on the rota for the trial of election petitions. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

The County Judges are also Judges of the Surrogate Courts. *Surrogate Clerk for Ontario*—Hon. Timothy W. Anglin. *Assistant Surrogate Clerk*—Sir F. A. Robinson, Bart. *Clerk*—Alex. J. R. Duff.

DIVISION COURTS are held for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 and the original amount was ascertained by the signature of the defendant, and to $100 in other cases of debt, subject in some cases to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

DIVORCE COURTS IN CANADA.

In Canada, under the Union Act, 1867, divorce is one of the subjects assigned to the Federal Parliament. As, however, some of the provinces had established divorce courts before Confederation, they have been permitted to continue the jurisdiction which was conferred upon their courts. These provinces are: Nova Scotia, New Brunswick, Prince Edward Island and British Columbia. A Divorce Court was first established in Nova Scotia in 1739. It consisted of the Governor or Commander-in-Chief and the members of the Executive Council. By act, 1866, the Judge in Equity became Judge Ordinary of the Court. One of the assistant judges of the Supreme Court is now at the head of this court. The court has jurisdiction to declare any marriage null and void for impotency, adultery, cruelty or kindred within the prohibited degrees. In New Brunswick a divorce court was established in 1791, and consisted of the Governor and five members of the Executive Council. In 1835 a judge of the Supreme Court was added, and in 1860 a Court of Divorce and Matrimonial Causes was created. Prince Edward Island, in 1836, received a Court of Divorce, composed of the Lieutenant-Governor in Council. British Columbia exercises the power of granting divorces under an ordinance passed in 1867, after the union of the two Colonies of Vancouver Island and the Mainland, which enacted that the civil and criminal laws of England, as they existed on the 19th November, 1858, were in force in all parts of British Columbia. In Ontario, Quebec, Manitoba and the Northwest Territories, divorce can only be obtained by legislation—an Act of the Parliament of Canada being necessary. The rules of the Senate touching divorce require the production of such evidence in support of the application or relief as would be deemed sufficient in a court of law; in other respects the matter is dealt with as for an ordinary private Act of Parliament.

HOW CANADA IS GOVERNED.

("GLOBE," AUGUST 10, 1895.)

"It was a difficult task that Dr. Bourinot undertook when he set out to make a popular exposition of our governmental institutions. It called for unusual scholarship, clerical knowledge, and consummate skill and tact in handling a voluminous amount of matter obscured in technicalities. Although we enjoy what is termed 'popular government' in this country, the rationale of the institution has been anything but understood by the people. Jokes are innumerable and enliven the addresses of candidates in election times of the crass elector confounded by the nomenclature of the law. Such incidents have frequently been utilized to illustrate the fatuity of universal suffrage. In reality they reflect to serious disadvantage upon an educational system which must be defective in that an important department of instruction has been omitted. Our schools are designed to prepare our children for citizenship, but having attained that responsibility they too often find themselves imperfectly equipped for their duties. Hitherto whatever may have been the consciousness of ignorance only those with leisure and opportunity could institute such researches, spread over a wide field, which could inform them on the points they desired. Now, in this citizen's manual there is to be found duly arranged for reference all that information on the subject needed by the average woman and man.

"We have no better authority on constitutional usages than Dr. Bourinot in Canada. His many years of clerical service in the Federal Parliament have familiarized him with the working of every portion of the gigantic machine which makes us 'go' as a nation. In addition, he is a literateur, and historian, and a man seemingly bent on doing substantial service to his country. In his prefatory remarks he indicates the aim and scope of his book, his method of treatment and his reasons for such, and concludes with a hope that it may serve as a stimulant and encourage both men and women to perform their full share in the active affairs of the Dominion. A convenient system of division and sub-division is followed to facilitate the exposition and hold the reader's attention. A small map of Canada, showing her political divisions, is given, and excellent illustrations of public buildings, national paraphernalia and facsimile autographs of famous men brighten the pages. Nothing more than a brief description of the work can be attempted in a review, since the succession of statements admits of little comment. After a close reading of several hours and when lost in admiration of the monumental ingenuity which has reared so intricate and so inclusive a structure, however, it is somewhat discouraging to find it stated that the most perfect of constitutions may be relatively worthless, that laws reach but a little way, and that the prosperity of a nation largely depends upon the exercise of powers not mentioned in any section, sub-section or clause. The natural inference to be drawn is that men, as well as laws, need our study and attention, and that a judicious choice of administrators brings a people better returns by far than any number of provisions, however crafty, to compel virtue, happiness and prosperity in the state. We are prone to forget that the Government was made for man, and not man for the government. Laws, however liberally framed and flexible, do not reach all cases—sometimes in extremity a case is stretched to fit.

"One of the features of this manual is the careful explanation and definition of every technical term or phrase likely to be unfamiliar to the reader. The author at the outset designates the differences between 'government,' 'law,' 'constitution,' 'administration,' 'parliament,' 'executive power,' 'legislative power' and 'judicial power'—terms which are ordinarily employed interchangeably and erroneously. He then outlines the political growth of Canada, dividing, for convenience, the political history of Quebec and Ontario into four complete periods. The first, that of French rule, an absolute government, from 1608 to 1759-60; the second that of English rule, when representation and legislative institutions were established, from 1760 to 1791: the third from 1791 to 1840, when these were developing into responsible government; the fourth from 1840 to 1867, when responsible Government was confirmed and Federal union accomplished. Proceeding with these generous divisions the author outlines in a lucid manner our constitutional history, touches upon the immigration of the U. E. Loyalists, and the foundations of the Maritime Provinces, and but too lightly refers to that heroic struggle in both Upper and Lower Canada which culminated in the rebellion of 1837.* * *

"As the Dominion forms one of the most important dependencies of the Empire, the work will probably obtain more than a local circulation."

LIFE INSURANCE.

There are at present thirty companies engaged in the business of life insurance in Canada. Of these twelve are Canadian, eight British, and ten American. During the year 1894, which is the last one of which we have returns, there was $49,525,257 new insurance taken, which was greater by $4,322,410 than in 1893.

The total amount of insurance in force at the end of 1894 was $308,161,436, divided as follows :—

Canadian companies	$177,511,846
British do	33,911,885
American do	96,737,705
	$308,161,436

During the year the amount of insurance terminated by natural causes, that is by death or maturity was $4,652,944, while the amount surrendered or lapsed was $30,452,742.

The premium income during 1894 was as follows :—

Canadian companies.....	$5,435,031
British do	1,079,330
American do	3,394,914
	$9,909,275

The total amount paid to policy-holders during 1894 was as follows :—

Death claims (including bonus additions)	$3,411,784 66
Matured endowments do ...	721,538 34
Annuitants.....	61,592 31
Paid for surrendered policies	656,969 46
Dividends to policy holders.....	665,044 72
Total.....	$5,516,929 49

In selecting a company in which to insure one's life, the first consideration should be safety, and economy the second. As the taking of a policy is a matter of importance to most men, they should be sure that the company they are going into is sound financially. Every year there is published by the Superintendent of Insurance at Ottawa a report containing the true financial position of all the different companies, a little study of which will make it plain to any business man.

The following table gives the premiums charged by some of the principal life insurance companies for insuring $1,000 at different ages. Besides the "straight life" insurance there are other attractive plans given by most of the companies, such as "endowments," "limited payments," "terminal" and "semi-tontine," etc., all of which will no doubt be explained by the enterprising agent, and should be carefully considered in all their bearings by the intending insurer :—

Annual Premiums, at Different Ages, with Profits.

The following table gives the annual premiums to secure $1,000 payable at death with profits at the ages given :—

Many other plans of Life Insurance are presented by the various companies, each possessing their own peculiar advantages. The two leading schemes beside the regular straight life plan are the ten, fifteen and twenty payment Life and the Endowment policy. Under the first of these arrangements the insurer pays a premium for ten, fifteen, or twenty years as the case may be, and his policy is then paid up. He has nothing more to pay. In the event of his death occuring any time after the first premium is paid the amount of his policy is paid to his heirs, or as he may direct. After the policy is paid up, if it is a participating one, it continues to receive profits, which either take the form of additional insurance or are paid out in cash dividends.

Under the **Endowment Plan** the insurer pays the premium for ten, fifteen, twenty or twenty-five years according to the term of his policy, and at the end of that term the amount of his policy becomes payable. Should his death occur at any time after insuring, the amount is paid to his heirs just the same as on ordinary life policy. The advantage of an arrangement of this kind is that a man may make provision for his old age and by paying a slightly higher premium make sure of a sum coming to him when perhaps he is unfitted for business. At the same time his life is insured should he die previously.

The following table gives the rates of some of the principal companies under the plans outlined above.

In thus quoting rates it is only fair to state that *cheapness* is not the only or the principal thing that an intending insurer should look for. Among other things to be considered are, policy advantages and profits, extended insurance, etc.

Many other attractive plans of insurance are devised by different companies and the editor has been requested to represent some of them to the advantage of individual companies. This would be manifestly unfair in an article such as this, and we can only direct our readers to our advertising pages, assuring them that all companies represented there are well worthy of their confidence.

A new and commodious hotel—THE ISLAND HOUSE—has been built on an island in the Grand Discharge fishing grounds, and is run in connection with Hotel Roberval. These Hotels control the fishing rights of Lake St. John and tributaries, all of which are free to the guests of the Hotels.

A commodious steamer, the "Mistassini," runs daily during the tourist season between Roberval and the Island House, Grand Discharge, thirty miles distant.

The Chicoutimi extension, recently completed, offers to ourists a new round trip, from Quebec to Lake St. John, and thence to Chicoutimi by rail down the Saguenay (by daylight) and back to Quebec by water. It is no exaggeration to say that this trip, for grandeur of scenery, is unequalled in America.

The finest Wheat lands in the Province of Quebec are now offered for sale by the Provincial Government in the Lake St. John Territory.

FIVE REASONS

WHY YOU SHOULD USE THE

National Safety Cheque Paper

1. It prevents the raising of Cheques, Drafts, &c., &c. Any attempt at alteration, either by erasure or by the use of chemicals is immediately evident.

2. It has been used for twenty-five years, and there has not been a single instance of successful alteration.

3. It is endorsed by the leading Bankers of the United States and foreign countries.

4. It is **distinctive**—every sheet having upon its surface the Registered Trade Mark, National Safety Paper, in combination with an anchor, and also the Registered Trade Mark

LA MONTE,

water-marked through the paper, which can be seen by holding the sheet to the light. No paper without these distinctive marks is genuine.

5. It stands at the head of all safety devices, and all cheques, drafts and vouchers of value should be printed upon it.
